Driving on Ice 66,5°N – The fastest safety center in the world

About us?

For many years in international motorsport active, we have found us! We thought that the synergy between development, race and test area, events in the "motor area" and media work in combination with our international contacts for suitable to start "Driving on Ice 66,5°N". With **10-12 production-Audi R8 and Audi RS6 (between 450 hp and 701 hp)**, we offer our guests not only an unforgettable driving experience, we also provide the control of driving situations in the border area (and beyond!) that you will be willing to act in emergency situations even in daily traffic. With pride we can say: "We offer the **fastest Driving on Ice 66,5°N** around the world."
